

ABOUT US

At **Impact One Nation Industrial Corporation (IONIC)**, we are committed to providing comprehensive solutions in water treatment, waste water treatment, and plant preventive maintenance while caring for the environment. As one of the major full service providers in the field of metal pipe cleaning and passivation, and water treatment for boilers, cooling, and reverse osmosis systems, we pride ourselves on our dedication to sustainability, innovation, and excellence. For waste water treatment systems, we employ innovative technologies and industry best practices from primary treatment to tertiary treatment processes in order to ensure compliance with regulatory standards.

With years of experience in the industry, our dedicated team brings expertise and a deep understanding of various water treatment systems, waste water treatment systems, and plant preventive maintenance. We uphold the highest standards of quality in our products and services by ensuring that our solutions consistently deliver optimal performance.

Our Range of Services:

- **Chemicals:** From water disinfection to scale and corrosion inhibition, our comprehensive range of chemicals is designed to address a wide spectrum of needs for water and waste water treatment, and pipe cleaning and passivation. Our formulations are carefully crafted to deliver maximum efficacy.

- **Equipment:** We offer a diverse selection of state-of-the-art equipment for water treatment including filtration systems and reverse osmosis units. We ensure that the equipment we provide is engineered for durability, efficiency, and ease of use, ensuring optimal performance and long-term reliability.

At IONIC, we are more than just a provider of chemicals, equipment, and services – we are your trusted partner in environmental care. Contact us today to learn more about how we can help you achieve your water treatment goals while preserving our planet for future generations.

INDUSTRIAL CORPORATION

**THE TOTAL CORROSION
CONTROL COMPANY & THE
NEW INDUSTRY STANDARD
IN WATER TREATMENT WITH
ENVIRONMENT CARE**

SERVICES OFFERED

- Cooling Tower, Boiler, and Chilled Water System Treatment, Installation, and Repair

- Cleaning, Disinfection, and Repainting of Tanks and Pipelines

- Design, Installation, and Rehabilitation of Waste Water Treatment System

- Installation and Maintenance of Pre-water Treatment Facilities

- Installation and Maintenance of Reverse Osmosis Water System

- Installation of Chlorinator for Potable Water System

- Installation and Maintenance of Centralized Air-conditioning Units

- Chemical cleaning/ Descaling/ Passivation

- Industrial Painting Job

PRODUCT LIST

• **COOLING WATER AND BOILER WATER TREATMENT CHEMICALS**

- Scale and Corrosion Inhibitor
- Algaecide
- Microbiocide
- Multi-Functional Boiler Water Treatment

• **PREVENTIVE MAINTENANCE CHEMICALS**

- Chemicals for Water Treatment, Reverse Osmosis, and Waste Water Treatment Systems
- Chemicals for Boilers and Cooling Systems
- Chemicals for Anti-Corrosion and Passivation Treatment of Metals
- Lubricants, Oils, and Greases
- Filtration Media (Activated Carbon, Silica Sand, Anthracite)

• **EQUIPMENT**

- Reverse Osmosis Membranes/ Filters
- Filtration Systems
- UV Disinfection Equipment
- Replacement or Spare Parts for Cooling Towers
- Other equipment for Water Treatment

DISTRIBUTOR OF

- VCI Corrosion Inhibitor Products
- Industrial Degreaser
- Automotive Cleaner
- Gun Oil Cleaner

- Water Treatment and Fuel Oil Treatment Chemicals
- Anti-Corrosion Chemicals/Spanner
- Cleaning, Maintenance, and Disinfectant Chemicals
- Specialty Chemicals

- Biocides
- Corrosion Inhibitors
- Scale Inhibitors
- Algaecide
- Dispersants
- Anti-Foam
- Stabilizers
- Extractants
- Chelants
- Bleaching
- Scavenging Resins
- Waste Water Polymers

- Greases
- Oils
- Specialty Lubricants
