**ionic** **IMPACT ONE NATION**  
**INDUSTRIAL CORPORATION**

*The Total Corrosion Control Company & the New Industry  
Standard in Water Treatment with Environment Care*

# About IONIC

Founded in 1996 as Ionic Chemicals & Industrial Corporation (ICIC) and rebranded as Impact One Nation Industrial Corporation (IONIC) in 2015, we have established ourselves as one of the key players in the field of plant preventive maintenance and water treatment for boilers and cooling systems for nearly three decades. Now, we have added waste water treatment solution systems to our expertise to cater to a wider set of clients and their needs.

At IONIC, we are committed to delivering comprehensive and innovative treatment programs tailored to each client's unique requirements. Our comprehensive range of services cater to different industries ranging from manufacturing to municipal sectors.

# OUR MISSION AND VISION

## MISSION

Our mission is to provide comprehensive water treatment solutions and proactive plant preventive maintenance services that ensure the reliability, efficiency, and sustainability of our clients' operations. Through comprehensive and innovative treatment solutions, we strive to exceed expectations of our clients and contribute to the well-being of communities and ecosystems worldwide.

## VISION

Our vision is to be the premier provider of integrated water treatment and plant preventive maintenance services, setting the standard for excellence and innovation in our industry. By leveraging innovative treatment solutions and fostering a culture of continuous improvement, we strive to empower our clients to thrive in a sustainable and resilient world, where the health of our planet and our communities is prioritized for generations to come.

# OUR DIVISIONS

# OVERVIEW OF DIVISIONS

|      |                                                            |
|------|------------------------------------------------------------|
| I.   | Industrial Cooling, Boiler and RO Water Treatment Division |
| II.  | Airconditioning Division                                   |
| III. | Preventive Maintenance Chemicals Division                  |
| IV.  | Wastewater Treatment Division                              |
| V.   | Oil, Grease, and Lubricant Division                        |
| VI.  | Oil Spill Supplies Division                                |

# Industrial Cooling, Boiler, and RO Water Treatment Division

- Focuses on the purification, treatment, and management of water used in cooling, boiler, and RO water treatment systems using high quality chemicals and equipment.
- Water treatment solutions include providing equipment, materials, and chemicals for water treatment of cooling systems , boilers and reverse osmosis systems.
- Clients include:
  - **Excellent Energy Resources, Inc. (EERI)**
  - **Linseed Field Corporation**

San Miguel  
Global Power

**DMCI POWER**  
CORPORATION

**SEMIRARA**  
MINING & POWER  
CORPORATION

# Airconditioning Division

- Specializes in providing comprehensive solutions for cooling systems and air conditioning in various industrial and commercial settings.
- Services include water treatment of cooling systems, installation of new cooling units, servicing and cleaning of equipment, and replacement of parts.
- Clients include:

## Preventive Maintenance Chemicals Division

- Specializes in providing a comprehensive range of chemical solutions and services aimed at preventive maintenance and optimization of industrial equipment and processes.
- Dedicated in supplying chemicals and services to a spectrum of industries, which includes pipe cleaning and passivation, and pre-operational cleaning prior to equipment and system start-up and commissioning.
- Clients include:
  - **Excellent Energy Resources, Inc. (EERI)**
  - **Linseed Field Corporation**

## Wastewater Treatment Division

- Dedicated to providing comprehensive and customized solutions for the purification, treatment, and management of wastewater generated by various industrial and municipal sources.
- Through various treatment technologies which include biological treatment, physical-chemical treatment, filtration, disinfection, and sludge management, our team is committed to help our clients meet regulatory requirements related to wastewater discharge, effluent quality, and environmental protection.
- Clients for chemicals supply include:

Cultural Center of the Philippines

## Oil, Grease, and Lubricant Division

- Specializes in providing a comprehensive range of high quality oils, greases, and lubricants tailored to the needs of various industries and applications.
- Dedicated in recommending the most suitable products for different equipment types, operating conditions, and performance requirements to ensure extended equipment life, reduced wear and tear, improved efficiency, enhanced corrosion protection, and increased operational reliability.
- Clients include:

## Oil Spill Supplies Division

- Dedicated in providing high quality chemicals, materials and equipment such as sorbent materials and dispersants for oil spills, ensuring environmental protection and minimizing the impact on ecosystems and communities.
- Our team developed a specialized marine oil dispersant **(MAGIC CHEM (OSD) 1280)** that efficiently removes oil from the water surface and affected areas
- Clients include:
  - **San Nicholas Lines, Inc.**
  - **Pherwin Shipping Corp.**

## IONIC Specialized Chemicals for Water Treatment Programs

|                       |                                                         |
|-----------------------|---------------------------------------------------------|
| AQUATRACT CT-3200     | Scale and Corrosion Inhibitor for Medium Hardness Water |
| AQUATRACT CT-3100     | Scale and Corrosion Inhibitor for City Water            |
| AQUATRACT CT-4000     | Algaecide                                               |
| AQUATRACT CT-4210     | Microbiocide                                            |
| AQUATRACT BT-2100     | Multi-Functional Boiler Water Treatment                 |
| MAGIC CHEM (OSD) 1280 | Marine Oil Dispersant                                   |

# Water Treatment Chemicals

|                                                  |                                                                          |
|--------------------------------------------------|--------------------------------------------------------------------------|
| <b>PH Adjustment &amp; Neutralization</b>        | Caustic Soda, Potassium Hydroxide, Hydrochloric Acid, Ammonium Hydroxide |
| <b>Scale &amp; Deposit Control/Cleaning</b>      | Citric Acid, Trisodium Phosphate, Aquatract CT-3200 ad CT-3100           |
| <b>Oxygen Scavengers &amp; Corrosion Control</b> | Chlosca 1040, Chemtreat BL-1260, Rostract CSC 1251                       |
| <b>Biological Control</b>                        | Aquatract CT-4000, Aquatract CT-4210, Belclene FB                        |

# Chlosca 1040

- Composed primarily of sodium metabisulfite
- Properties:
  - ✓ Odor : Sweet
  - ✓ Appearance : White powder
  - ✓ pH : 4.3
- Primary roles include:
  - ✓ Dechlorination of water
  - ✓ Oxygen scavenger for boiler feedwater
  - ✓ RO membrane cleaning
  - ✓ Pollution control
  - ✓ Microbial and odor control

# Chemtreat BL-1260

- Contains 5-10% carbonylhydrazide
- Properties:
  - ✓ Form: Clear, colorless liquid
  - ✓ Odor: Odorless
  - ✓ pH: 7-8
- Primary roles include:
  - ✓ Alternative to hydrazine
  - ✓ Provides dichlorination and oxygen scavenging
  - ✓ Ensures equipment longevity and operational efficiency

WATER TREATMENT SOLUTIONS

# VAPPRO PRODUCTS

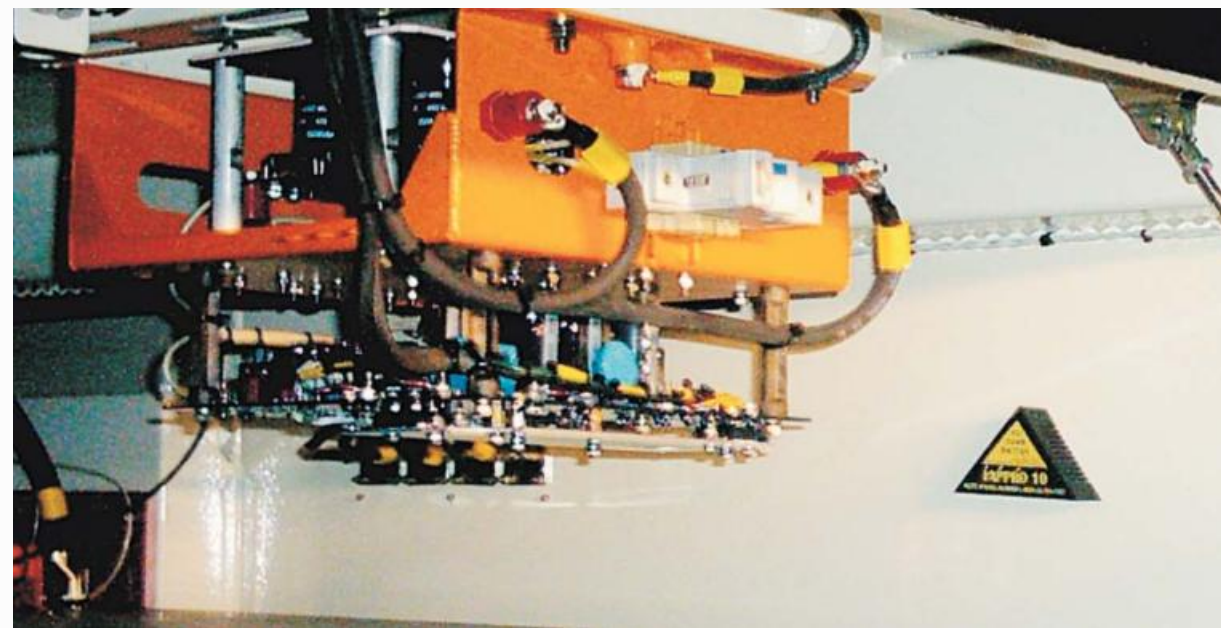

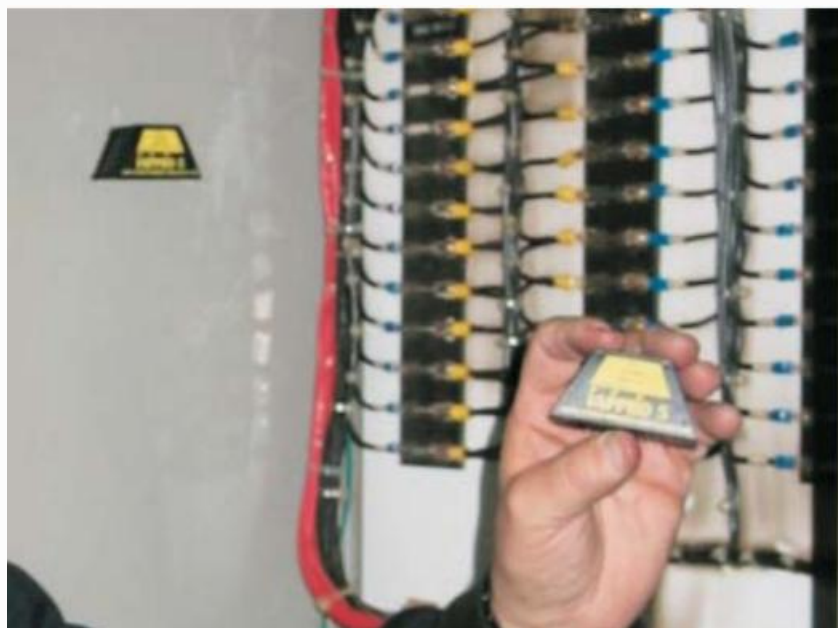

|      |                               |
|------|-------------------------------|
| I.   | VCI Emitters                  |
| II.  | VCI Packaging (for Equipment) |
| III. | VCI Coatings and VCI Powder   |
| IV.  | VCI Lubricant                 |
| V.   | VCI Additives                 |
| VI.  | Industrial Degreaser          |
| VII. | VCI Aerosol                   |

**VCI Anti-corrosion Products**

# VCI Emitters

- small devices that release protective vapors to prevent rust and corrosion on metal surfaces
- efficient, clean, and cost-effective solution for safeguarding equipment, tools, and sensitive components during storage or shipment

# MAGNA PRODUCTS

|      |                                                                |
|------|----------------------------------------------------------------|
| I.   | Water Treatment Chemicals (Magna 500 Series)                   |
| II.  | Cleaning & Maintenance Chemicals (Magna 100 Series)            |
| III. | Anti-Corrosion Chemicals (Magna 800 Series)                    |
| IV.  | Fuel Oil Treatment Chemicals (Magna 700 Series)                |
| V.   | Disinfectant & Cleaning Products (Magna 300 Series)            |
| VI.  | Floor and Hand Care Products (Magna 200, 400, and 600 Series)  |
| VII. | Oil Spill Dispersants and Aerosol Products (Magna 1000 Series) |

# ITALMATCH, BWA, AND LENNTECH PRODUCTS

|      |                                |
|------|--------------------------------|
| I.   | Biocides and Algaecides        |
| II.  | Corrosion and Scale Inhibitors |
| III. | Dispersants                    |
| IV.  | Anti-Foam                      |
| V.   | Stabilizers                    |
| VI.  | Scavenging Resins              |
| VII. | Waste Water Polymers           |

# LUPROMAX PRODUCTS

|       |                                        |
|-------|----------------------------------------|
| I.    | Greases                                |
| II.   | Metal Working Fluids                   |
| III.  | Pulling Cable and Wire Rope Lubricants |
| IV.   | Open Gear Lubricants                   |
| V.    | Aerosol Lubricants                     |
| VI.   | Oil and Fuel Oil Additives             |
| VII.  | Gear and Hydraulic Oil                 |
| VIII. | Thread Compound (Nickel & Copper)      |

# CASTROL PRODUCTS

|       |                                                                             |
|-------|-----------------------------------------------------------------------------|
| I.    | Chain Oils                                                                  |
| II.   | Compressor Oils                                                             |
| III.  | Gear Oils                                                                   |
| IV.   | Industrial Lubricants & Hydraulic Fluids                                    |
| V.    | Metalworking/Cutting & Forming Fluids                                       |
| VI.   | Corrosion Preventives & Cleaners                                            |
| VII.  | Specialty Oils/Greases (High-temp synthetic oils, High-performance greases) |
| VIII. | Quenching & Heat Treatment Oils                                             |

# LABORATORY REAGENTS

We use and supply laboratory reagents from:

**MERCK**

*Be Right™*

**LOBAL**  
**Chemie**

LABORATORY REAGENTS  
& FINE CHEMICALS

A photograph of several large, white rooftop HVAC units installed on a flat roof. The units are arranged in rows, and the image is overlaid with a dark blue semi-transparent filter. Stylized orange and yellow geometric shapes, resembling a stylized sun or wind, are positioned on the left and right edges of the image.

# EQUIPMENT OFFERED

## **We can supply the following:**

**Reverse Osmosis  
Membranes and Filters**

**Filtration Systems**

**UV Disinfection  
Equipment**

**Replacement or Spare  
Parts for Cooling Towers  
and Boilers**

**Equipment for Waste  
Water Treatment**

**Laboratory Equipment**

# ION EXCHANGE RESINS

The ion exchange resins we supply are from:

**Water Solutions**  
**AMBERLITE**

# RO MEMBRANES

Our RO membranes are from:

# LABORATORY EQUIPMENT

The laboratory equipment we supply are from:

*Be Right™*

# ELECTROCHLORINATION EQUIPMENT

We can also supply electrochlorination equipment from:

**ELECTRICHLOR®**

**SEACLOR®**

# SERVICES OFFERED

## A. Plant Preventive Maintenance

-  Cleaning, Disinfection, and Repainting of Tanks
-  Cleaning, Descaling, and Passivation of Pipes
-  Industrial Paint Job

## **B. Cooling Tower and Airconditioning**

Cooling System Treatment, Installation, and Repair

Installation and Maintenance of Centralized  
Air-Conditioning Units

## C. Water Treatment

-  Water Analysis and Testing
-  Installation and Maintenance of Pre-water and Water Treatment Equipment and Facilities
-  Installation and Maintenance of Reverse Osmosis Water System

## C. Water Treatment

-  Installation and Maintenance of Boiler Water System
-  Installation of Chlorinator for Potable Water System
-  Integration of Monitoring and Control Systems to Continuously Assess Water Quality

## D. Waste Water Treatment

-  Consultation and Designing Appropriate Waste Water Treatment System
-  Installation, and Rehabilitation of Waste Water Treatment System
-  Integration of Monitoring and Control Systems to Continuously Assess Water Quality

## E. Electrochlorination

-  Consultation and Designing Appropriate Electrochlorination System
-  Installation, Rehabilitation, and Optimization of Electrochlorination System
-  Integration of Monitoring and Control Systems to Continuously Assess Quality
